#### Description

Quelle QX Special care – Engine flush is highly effective detergent and dispersant additives in association with the carrier fluid have undergone extensive testing in the laboratory and in practical field trials for their ability to dissolve deposits. Oil-soluble and oil-insoluble residues are brought into suspension and removed from the Engine. The fresh oil can then deliver its full performance in the cleaned engine.

#### Application

Cleaning and flushing out the oil systems of gasoline and diesel engines. Improves hydraulic function and other oil actuated switches and valves. Can be safely used in vehicles with timing belt running in oil

#### How to USE

**How to Use:** Add to motor oil at operating temperature before an oil change. After adding the product, allow the engine to idle for 10 – 15 minutes depending on the degree of contamination. Then change the oil and the filter. Compatible with all commercially available motor oils.

#### Typical Characteristics

Engine flush		
Property	Unit	
Viscosity 40 °C	mm <sup>2</sup> /s	7
Pour Point	°C	-45
Flash Point	°C	63
